

SPA BODY THERAPIES

Safe Tanning

New Fast Activating	45
The Original.....	45

Enjoy an all over healthy glow with our NEW sunless tan. For years we have struggled with sunless lotions trying to achieve a perfect tan, but these lotions can be difficult to apply evenly by yourself, and mostly end up streaky and uneven. But with spray on formulation a natural tan can be achieved in minutes.

The DHA formulation contains a safe and simple molecule that reacts with protein and amino acids in the skin's superficial layer to form a golden brown colour. This method is fast and allows the formulation to be applied evenly. Drying time is approximately 10 minutes and lasts 7-10 days.

To achieve best results, exfoliate your body before application and don't wear any body moisturiser or deodorant.
New Fast Activating 2 hours,
The Original 12 hours.

If you have a special event, a photo shoot, or just want to look good on the beach, then come and try our spray tan.

WAXING

Known as the 'Wacky Wax Ladies', this is our speciality! No part of the body is unstripable ... if you dare, we'll bare it for you!
